PUBLICATIONS RECEIVED DURING JULY-AUGUST 1967

BULLETIN OF THE MONTH

A Guide to Natural Beauty
Miscellaneous Publication No. 1056

This booklet, illustrated by 36 photographs in full color, offers suggestions and services of the U. S. Department of Agriculture to assist those who wish to improve the natural beauty of their home surroundings, their communities, and the Nation's countryside. The guide shows what others have done—and what you can do—to make the best and most beautiful use of home gardens, community parks, country fields and forests. [33] p. 55¢.

FOR SALE ONLY.

FARMERS' BULLETINS

Trefoil production for pasture and hay.
(F 2191) 16 p. 10¢.

This revised bulletin presents information on the varieties (birdsfoot, narrowleaf, and big), methods of establishment, adaptation, and uses. Also gives general recommendations for weed control in trefoil pastures and seed crops, and discusses diseases and insect pests that attack trefoils.

LEAFLETS

Field bindweed and its control. (L 496)
8 p. 5¢.

Field bindweed (also called creeping jenny and wild morning-glory), a drought-resistant perennial weed that has deep roots and low-growing twining stems, is described; and various control measures are explained in this leaflet.

Fescue foot in cattle, what to do about it. (L 546) [6] p. 5¢.

This leaflet tells how, where, and

when fescue foot (a crippling disease contracted by beef and dairy cattle that feed on tall fescue) is likely to occur. It describes its symptoms and signs, and discusses treatment and prevention.

HOME AND GARDEN BULLETINS

Lawn diseases, how to control them.
(G 61) 16 p. 20¢.

This revised bulletin has been prepared primarily for homeowners. However, much of the information can be applied to turfs in parks, school grounds, golf courses, and athletic fields. Only the most common and widespread diseases are discussed. Illustrations are printed in natural color as an aid in quick identification of the diseases.

How to buy Cheddar cheese. (G 128)
Folder. 5¢.

Bulletin explains the U. S. grade shield, and the meaning of grades and labels. Gives information on storing and using Cheddar cheese.

- Economic aspects of unhairing hides at the packinghouse. (MRR 797) 15 p. 15¢.

MISCELLANEOUS PUBLICATIONS

- Scientific careers in Plant Quarantine Enforcement. (M 853) Folder.

This revised leaflet describes the regulatory programs that are administered by the Plant Quarantine Division of the Agricultural Research Service. It lists salaries and job benefits, summarizes qualification requirements, and tells how to get additional information.

Scientific careers in Plant Pest Control. (M 854) Folder.

This leaflet (revised) outlines the work of the Plant Pest Control Division in the Agricultural Research Service. It also gives information about employment as a Plant Pest Control Inspector. Positions are available throughout the United States.

- Andirondack-type shelter, plan No. 5998. (M 1055) 1 sheet. 5¢.

This economical and easy to erect pole-type construction fills the recreational needs for scout camps, hunting shelters, and overnight accommodations on the foot trail. It also may be used on a suburban lot as a playhouse or storage place for garden tools and recreational equipment. Some shelters have been used as market stands for fresh farm produce.

- A guide to natural beauty. (M 1056) [33] p. 55¢. FOR SALE ONLY.
- See Bulletin of the Month.

- Potato storage 20,000 cwt. arched roof, plan No. 5989. (M 1057) 1 sheet 5¢.

This design is for storing and packing of seed, processing, and table stock potatoes. The overall floor area totals 5,600 square feet. The work area may be used for grading, sorting, packing, seed cutting, and shipping. During cold weather, the storage and the work area are heated by separate gas-fired furnaces.

- Women's work in the Forest Service. (M 1058) [7] p. 5¢.

This publication discusses the career opportunities for women in the Forest Service. About 25 percent of full time positions in the Forest Service are filled by women, and only one-tenth of these are located in Washington, D. C. The other nine-tenths are found in towns and cities all over the country—so it is quite probable that a woman may find employment in a Forest Service office near her home.

- 3-bedroom rural dwelling. . . brick veneer, plan No. 7175. (M 1059) 1 sheet. 5¢.

This one-story house has three bedrooms, two bathrooms, living room, kitchen-dining area, and a storage room or workshop back of the carport. Steps from the storage room lead to a storm and fallout shelter beneath the master bedroom. This arrangement has advantages for the maturing family.

- Swine feeder, plan No. 5988. (M 1060) 1 sheet. 5¢.

This hog-feeder design features an accelerator device that provides a constant flow of any ground feeding material and makes the feeder as reliable as the other parts of an automatic system.

Bibliography of tree nut production and marketing research, 1960-65. (M 1064) 39 p. 30¢. **FOR SALE ONLY.**

This bibliography has a section for each tree nut that is important in domestic trade channels. Listings are arranged alphabetically under subject matter headings.

It happens every noon. Sound, color, 16-mm., 13½ minutes.

... in all schools that take part in the National School Lunch Program—a good, “type-A” lunch. Providing from a third to one-half of the student's daily needs, a nutritious meal helps a child stay alert, even enthusiastic about school, and provides energy that will extend far beyond the lunch period. Yet, almost two-thirds of the millions of school children across the country do not participate in the program. This film is intended to awaken their parents, and communities, to the awareness of the school lunch program and to take action to see that every child takes advantage of it by getting a daily, well-balanced, midday lunch. TV cleared.
